Putin, Russia, KseniaSobchak, Onexim,

Food production in Russia needs to be brought up to a higher level - Futureproof -.

Meaning: you grow vegetables in an appartement-buidling.

In Canada a Small-businesschool at the End of the World is in hands of teenagers; they manage well.

So can the Russians.

Russians who now suffer underneath thte old-fashion-production of food, in hands of Monopolists, must get the opportunity to restart live & work in another part of Russia.... starting with Flat-food.

This is why Putin must leave the office; he can't communicate ...

And why you need me.... in the Open Politics, instead of the Hidden lobby.

I reduce the number of fighting Russians, in a row over old-fashion-politics.

Life can be less painfull, for the Russians!
